

Unite For Sight: Eye Health for Community Centers

Instructions for Chapters:

Each chapter of Unite For Sight is required to do a minimum of one outreach presentation per semester to community center staff. Before the presentation begins, you should ask each staff member to complete the “Eye Health for Community Centers Pre-Test” which can be printed from the Chapter Manual section of the Unite For Sight website. After the presentation is complete, you should then ask the teachers to complete the “Eye Health for Community Centers Post-Test,” also available for printing from the same location on the website. **These tests are identical, but it is important that you print them separately.** The tests are marked with different footers so that you can easily tell between the tests when you are grading them later. The tests include 13 multiple choice questions. **These tests are an important part of our effort to track the effectiveness of this program.** After the tests are completed, please use the answer key below to grade each test and enter the scores in the “Eye Health Community Centers Score Report” excel file on the Chapter Manual website. Then, email this completed sheet within 1-week of the school program to rturkel@uniteforsight.org **This email should include “Eye Health Community Centers Score Report” as the subject line.**

A quick checklist:

- 1) Introduce yourself as a Unite For Sight Community Fellow and explain the purpose of the presentation
- 2) Ask the staff to complete pre-test
- 3) Give presentation. You will train community center staff to identify potential visual difficulties among their clients, and you will also teach them to link community members with free health coverage programs (i.e. CHIP, VisionUSA, EyeCare America)
- 4) Ask staff to complete post-test
- 5) Grade both pre-test and post-test
- 6) Add grades to the Score Report
- 7) Email completed Score Report to rturkel@uniteforsight.org

We thank you for your efforts with this important outreach program.

Answer Key:

- | | | |
|------|-------|-------|
| 1) C | 6) D | 11) F |
| 2) A | 7) C | 12) B |
| 3) F | 8) D | 13) B |
| 4) A | 9) D | |
